We follow the National Recycling Coalition's Green Meetings policy.

Since 1985, the Blackstone Valley Tourism Council has planned and developed geo-tourism based programs for the Blackstone Valley communities of Pawtucket, Central Falls, Cumberland, Lincoln, Woonsocket, Smithfield, North Smithfield, Burrillville, and Gloucester. The Council works thru a collaborative approach uniting the region's historic, natural, cultural, recreational, educational, industrial, and commercial resources. In addition, the council actively participates in special events and public programs including educational river cruises, land tours, international affiliations, sports, arts, entertainment, and heritage interpretation. The Sustainable Tourism Planning and Development Laboratory educates tourism practitioners in place-making development strategies.
